

Boligforsyning i Oslo

Daniel Kjørberg Siraj, Konsernsjef OBOS

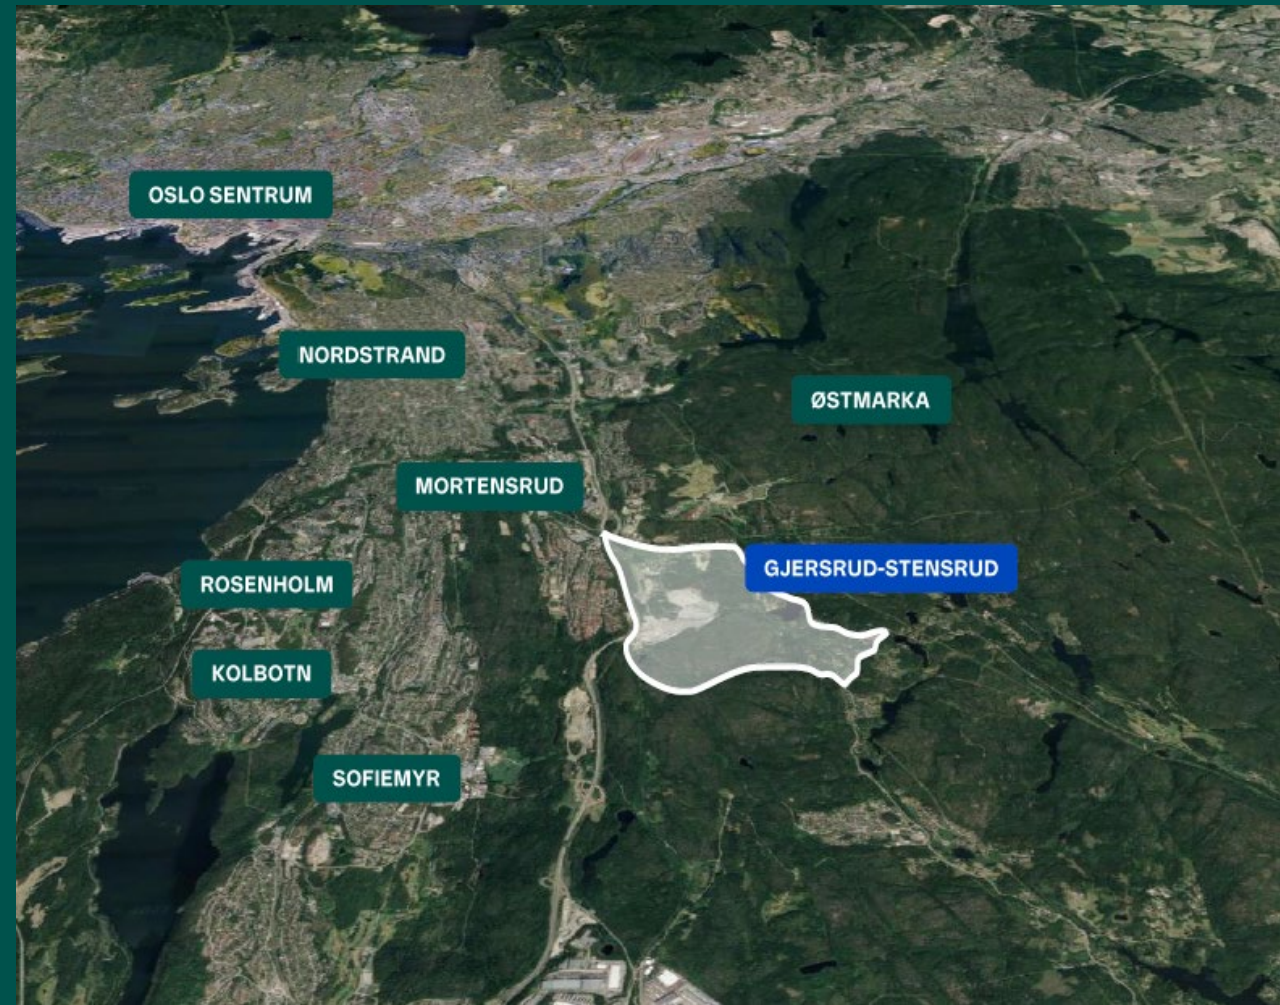

Boligunderskudd i Oslo år etter år

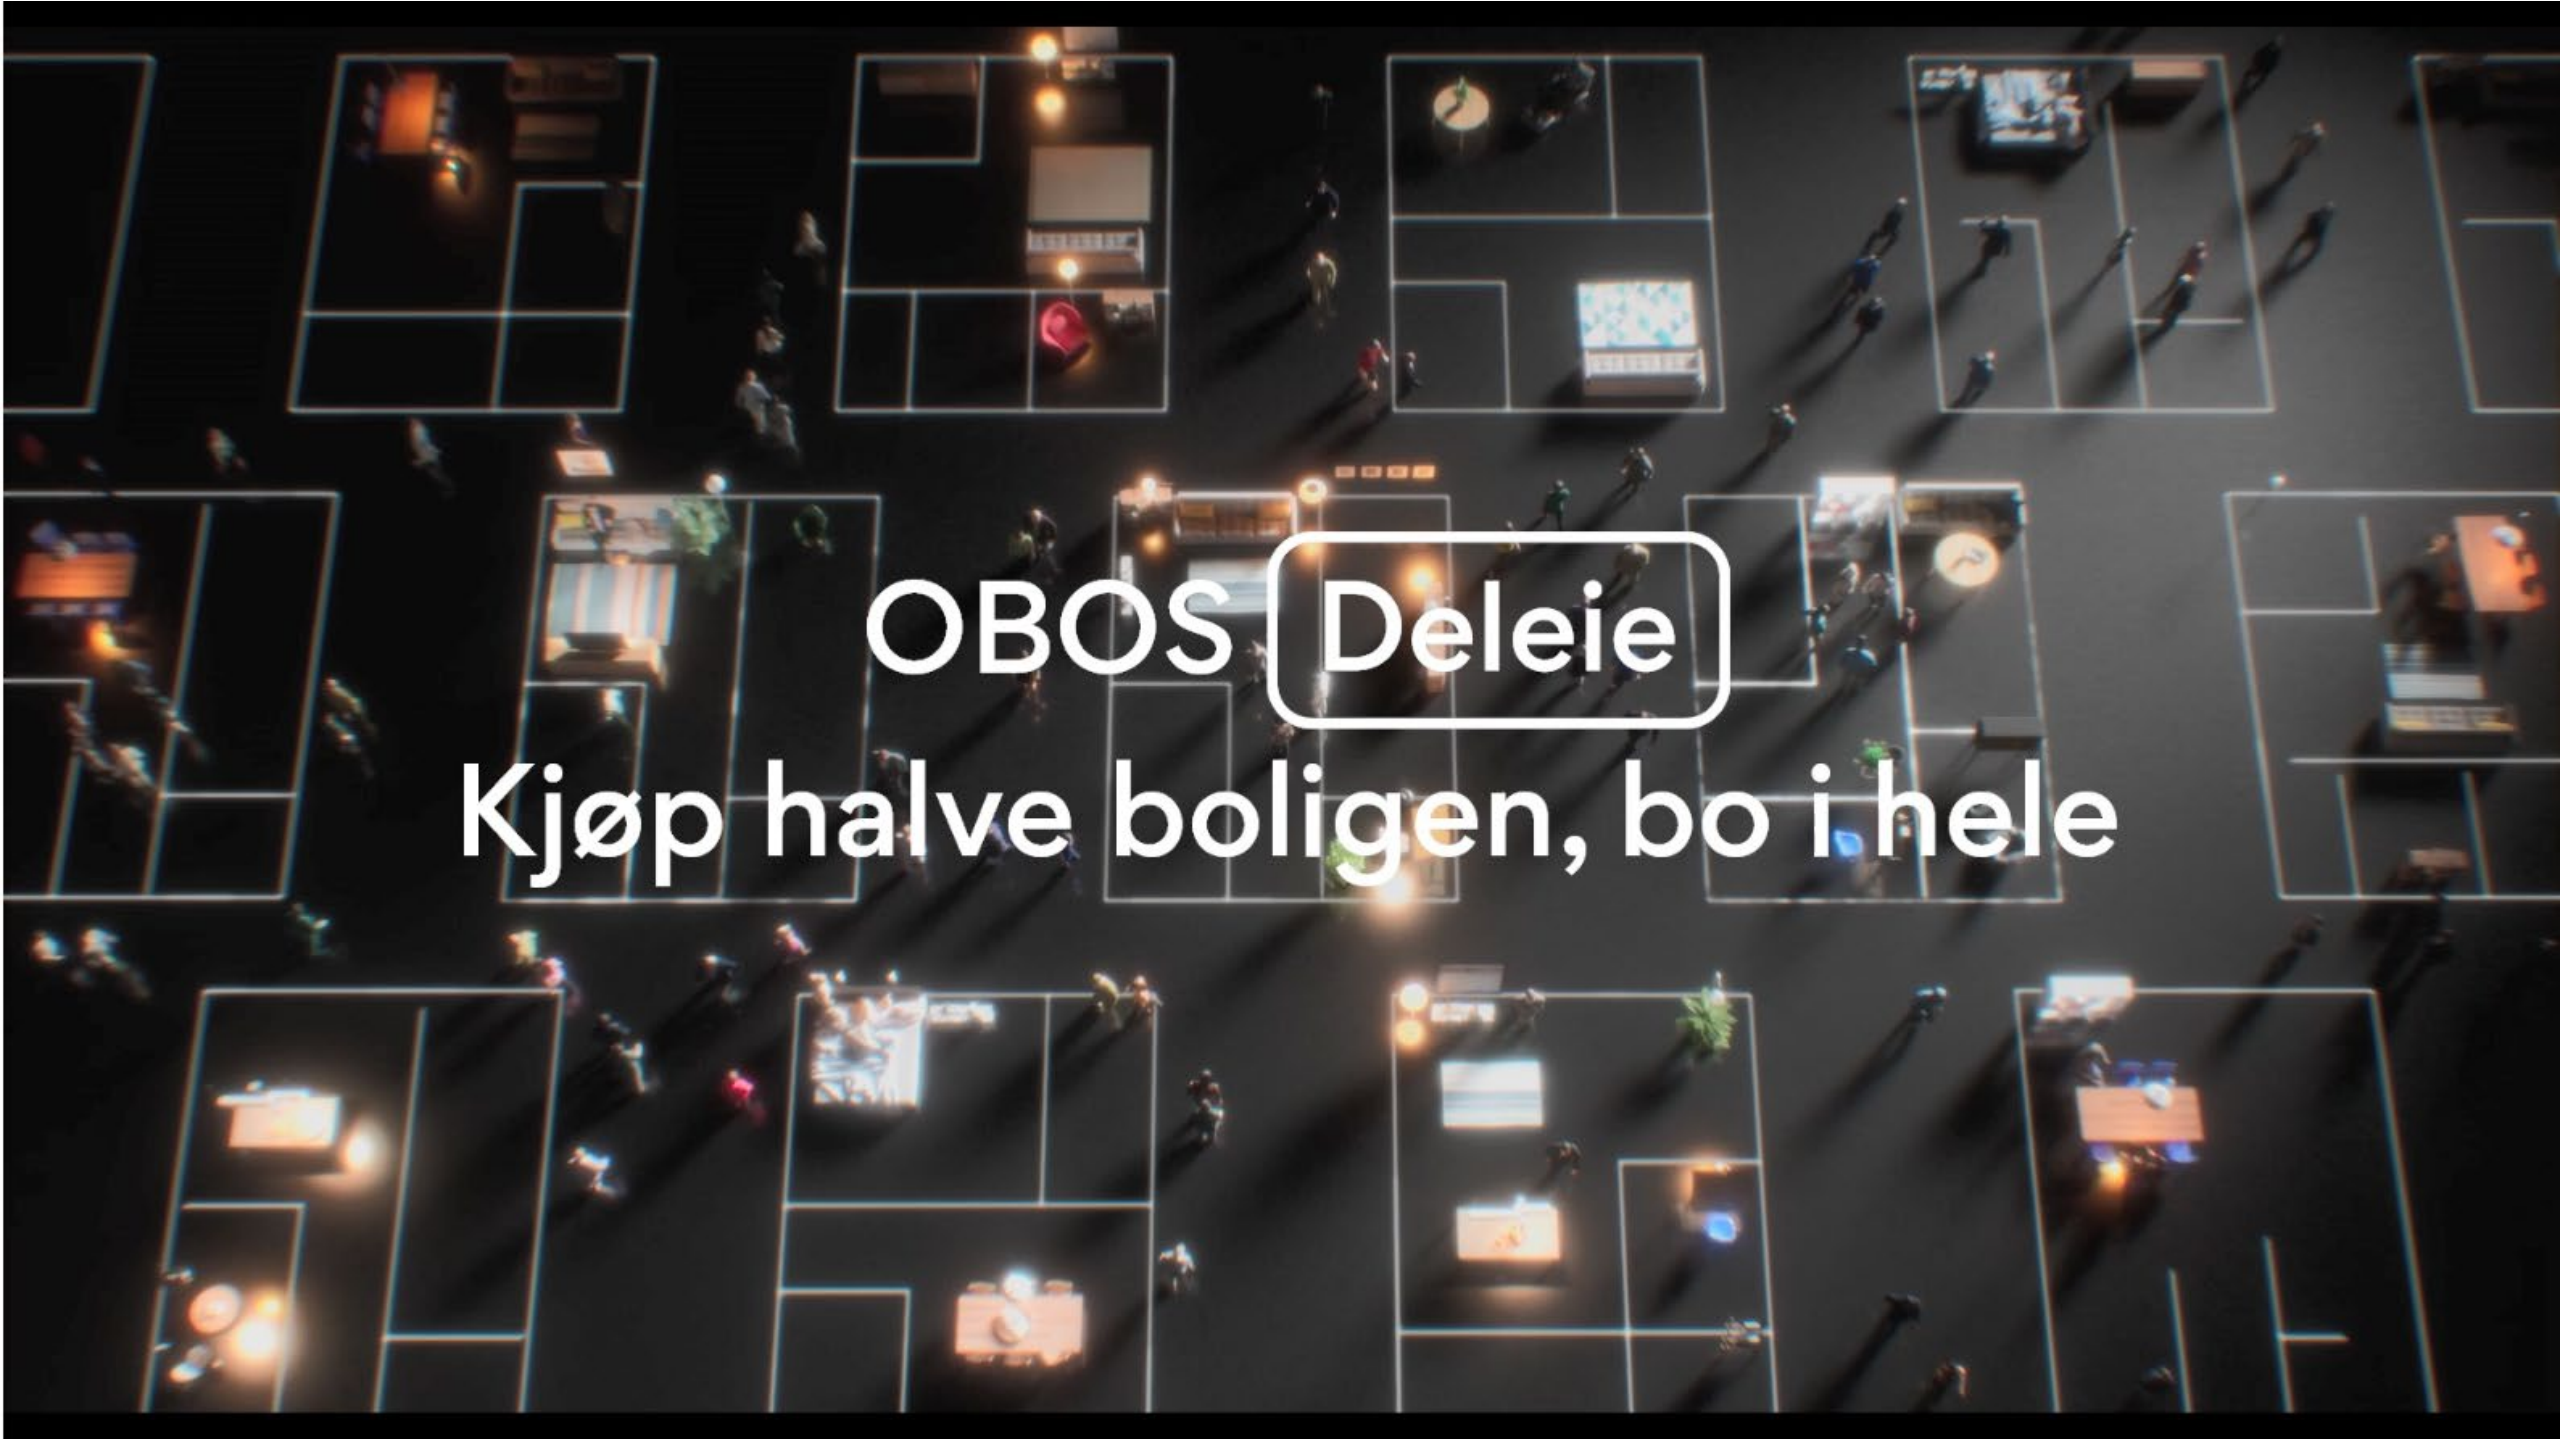

- akkumulert mangler det 15 000 boliger

An aerial, high-angle view of a city grid at night. The streets are dark, and the buildings are outlined by glowing white lines. Many windows are lit up with warm yellow light, while some have cooler blue or red lights. Small figures of people are scattered across the grid, some walking along the streets. The overall atmosphere is one of a bustling, modern urban environment.
